Contents

NUMBER 1, JANUARY 1996

1 *L. Skartveit & A. Halse:* Radiopacity of glass ionomer materials
5 *C. Ödman & S. Kiliaridis:* Masticatory muscle activity in myotonic dystrophy patients
11 *A.M. Raustia, M.A.M. Salonen & J. Pyhtinen:* Evaluation of masticatory muscles of edentulous patients by computed tomography and electromyography
17 *P. Galgut, I. Waite & R. Smith:* Tissue reactions to biodegradable and non-degradable membranes placed transcutaneously in rats, observed longitudinally over a period of 4 weeks
22 *T. Muto & M. Kanazawa:* The relationship between maximal jaw opening and size of skeleton: a cephalometric study
25 *A. Dastane, T.K. Vaidyanathan, J. Vaidyanathan, R. Mehra & R. Hesby:* Development and evaluation of a new 3-D digitization and computer graphic system to study the anatomic tissue and restoration surfaces
35 *S.E. Widmalm, W.J. Williams, R.L. Christainsen, S.M. Gunn & D.K. Park:* Classification of temporomandibular joint sounds based upon their reduced interference distribution
44 *S.E. Widmalm, W.J. Williams & B.S. Adams:* The wave forms of temporomandibular joint sound clicking and crepitation
50 *F. Bassi, G. Mantecchini, S. Carossa & G. Preti:* Oral conditions and aptitude to receive implants in patients with removable partial dentures: a cross-sectional study. Part I. Oral conditions
55 *K. Baba, M. Ai, H. Mizutani & S. Enosawa:* Influence of experimental occlusal discrepancy on masticatory muscle activity during clenching
61 *A.P. Vanderas:* Synergistic effect of malocclusion and oral parafunctions on craniomandibular dysfunction in children with and without unpleasant life events
66 *U. Hasanreĭsoğlu, H. Sönmez, S. Üçtaşli & H.J. Wilson:* Microleakage of direct and indirect inlay/onlay systems
72 *P.R. L'Estrange, J.M. Battagel, P.J. Nolan, B. Harkness & G.I. Jorgensen:* The importance of a multidisciplinary approach to the assessment of patients with obstructive sleep apnoea

NUMBER 2, FEBRUARY 1996

79 *J.C. Wataha:* Review: Materials for endosseous dental implants
91 *J.A. De Boever & K. Keersmaekers:* Trauma in patients with temporomandibular disorders: frequency and treatment outcome
97 *F.L.J.A. de Wijs, C. de Putter & M.S. Cune:* Front tooth replacement with Tübingen (Frialit®) implants: a radiographical evaluation
101 *B. Swartz, B. Svenson & S. Palmqvist:* Long-term changes in marginal and periapical periodontal conditions in patients with fixed prostheses: a radiographic study

108 *P.K. Vallittu, V.P. Lassila & R. Lappalainen:* The effect of notch shape and self-cured acrylic resin repair on the fatigue resistance of an acrylic resin denture base
114 *E. Kotsiomiti & J.F. McCabe:* Waxes for functional impressions
121 *R. Hamborg & S. Karlsson:* Movement and signal analysis by means of a computer-assisted system
129 *J.H. Chern Lin, S.J. Lo & C.P. Ju:* Biocorrosion study of titanium–nickel alloys
135 *I.C. Benington, C. Lappin, G.J. Linden & R. Thompson:* The clinical success and periodontal evaluation of patients rehabilitated with light-cured obturators
139 *S. Uctasli:* Repair strength of heat-pressed ceramics
143 *H. Yoshida, A. Tomizuka, K. Suzuki & H. Yusa:* Case Report: Objective evaluation of function of the lower lip reconstructed with a myocutaneous advancement flap

NUMBER 3, MARCH 1996

147 *L. Pröbster:* Four year clinical study of glass-infiltrated, sintered alumina crowns
152 *J.C. Davenport & P. Hammond:* The acquisition and validation of removable partial denture design knowledge. I. Methodology and overview
158 *T. Li & R.G. Craig:* Synthesis of fluorinated Bis-GMA and its use with other fluorinated monomers to formulate hydrophobic composites
163 *B.R. Carlson & E. Yontchev:* Long-term observations of extensive fixed partial dentures on mandibular canine teeth
170 *S. Üçtaşli & H.J. Wilson:* Influence of layer and stain firing on the fracture strength of heat-pressed ceramics
175 *F. Bassi, G. Schierano, M. Lorenzetti & G. Preti:* Oral conditions and aptitude to receive implants in patients with removable partial denture: a cross-sectional study. Part II. Aptitude
179 *J.F. Orr & C.A. Mitchell:* The evaluation of post-retained crowns using a custom-designed fatigue machine
186 *S.W. Yi, G.E. Carlsson, I. Ericsson & J.L. Wennström:* Long-term follow-up of cross-arch fixed partial dentures in patients with advanced periodontal destruction: evaluation of occlusion and subjective function
197 *H. Ulukapi, Y. Benderli & M. Soyman:* Determination of fluoride release from light-cured glass-ionomers and a fluoridated composite resin from the viewpoint of curing time
202 *J.L. Cunningham & I.C. Benington:* A new technique for determining the denture tooth bond
210 *E. Harrington, H.J. Wilson & A.C. Shortall:* Light-activated restorative materials: a method of determining effective radiation times

NUMBER 4, APRIL 1996

219 *M. Addy & P. Renton-Harper:* Review: Local and systemic chemotherapy in the management of periodontal disease: an opinion and review of the concept

232 *B.G.N. Smith & N.D. Robb:* The prevalence of toothwear in 1007 dental patients
240 *R. Liberman, C. Gorfil & A. Ben-Amar:* Reduction of microleakage in class II composite resin restorations using retentive pins
244 *A.L. Josey, I.A. Meyers, K. Romaniuk & A.L. Symons:* The effect of a vital bleaching technique on enamel surface morphology and the bonding of composite resin to enamel
251 *Y. Matsui, K. Ohno, K. Michi, H. Hata, K. Yamagata & S. Ohtsuka:* The evaluation of masticatory function with low adhesive colour-developing chewing gum
257 *S. Uctasli, H.J. Wilson, G. Unterbrink & A. Zaimoglu:* The strength of a heat-pressed all-ceramic restorative material
262 *O. Plesh, B. Bishop & W.D. McCall:* Patterns of jaw muscle activity during voluntary chewing
270 *F.A.M. Ottenhoff, A. van der Bilt, H.W. van der Glas, F. Bosman & J.H.Abbink:* The relationship between jaw elevator muscle surface electromyogram and simulated food resistance during dynamic condition in humans
280 *M.A. Al-Rafee & M.A. Fayyad:* Failure of dental bridges. I. Age and sex of patients and distribution of replaced and abutment teeth
283 *L.V. Christensen & K.T. Tran:* Predictability of jaw muscle pains from surface electromyograms

NUMBER 5, MAY 1996

289 *D.W. Bartlett, D.F. Evans & B.G.N. Smith:* Review: The relationship between gastro-oesophageal reflux disease and dental erosion
298 *J. Li, I. Nicander, M. von Beetzen & F. Sundström:* Influence of paste temperature at curing on conversion rate and bending strength of light-cured dental composites
302 *A. Yap, A.N. Stokes & G.J. Pearson:* An *in vitro* microleakage study of a new multi-purpose dental adhesive system
309 *J.C. Wataha & C.T. Hanks:* Review: Biological effects of palladium and risk of using palladium in dental casting alloys
321 *K.-H. Utz:* Studies of changes in occlusion after the insertion of complete dentures. Part I
330 *H. Abekura, H. Tokuyama, T. Hamada & T. Morimoto:* Comfortable zone of the mandible evaluated by the constant stimuli method
336 *T. Morimoto, H. Abekura, H. Tokuyama & T. Hamada:* Alteration in the bite force and EMG activity with changes in the vertical dimension of edentulous subjects
342 *O. Sykora & E.J. Sutow:* Posterior palatal seal adaptation: influence of a high expansion stone
346 *T. Arima, H. Murata & T. Hamada:* Analysis of composition and structure of hard autopolymerizing reline resins
353 *S.-Y. Lee, E.H. Greener, D.A. Covey & D.L. Menis:* Effects of food/oral simulating fluids on microstructure and strength of dentine bonding agents

NUMBER 6, JUNE 1996

363 *T. Hara, T. Sato, K. Nakashima & S. Minagi:* Effect of occlusal pressure on the histopathological changes in denture supporting tissues
372 *Ch. Besimo, G. Graber & M. Flühler:* Retention force changes in implant-supported titanium telescope crowns over long-term use *in vitro*
379 *J.R. Hesse, M. Naeije & T.L. Hansson:* Craniomandibular stiffness in myogenous and arthrogenous CMD patients, and control subjects: a clinical and experimental investigation
386 *J.A. Hobkirk & E. Brouziotou-Davas:* The influence of occlusal scheme on masticatory forces using implant stabilized bridges
392 *V.J. Miller, R. Zeltser, Ch. Zeltser & Z. Yoeli:* The condylar asymmetry–age relationship in determining myogenous or arthrogenous origin of pain in patients with temporomandibular disorders
395 *J.C. Türp, W. Vach, K. Harbich, K.W. Alt & J.R. Strub:* Determining mandibular condyle and ramus height with the help of an Orthopantomogram®—a valid method?
401 *V.F. Ferrario, C. Sforza, A. Miani Jr, G. Serrao & G. Tartaglia:* Open–close movements in the human temporomandibular joint: does a pure rotation around the intercondylar hinge axis exist?
409 *H. Miyawaki, M. Taira & M. Yamaki:* Cutting effectiveness of diamond points on commercial core composite resins and cements
416 *T. Kampe, H. Hannerz & P. Ström:* Ten-year follow-up study of signs and symptoms of craniomandibular disorders in adults with intact and restored dentitions
424 *L.V. Christensen, K.T. Tran & S.E. Mohamed:* Gum chewing and jaw muscle fatigue and pains
438 *M.A. Fayyad & M.A. Al-Rafee:* Failure of dental bridges. II. Prevalence of failure and its relation to place of construction
441 Erratum

NUMBER 7, JULY 1996

443 *T. Kampe, G. Edman & H. Hannerz:* Ten-year follow-up study of personality traits in adults with intact and restored dentitions
450 *T. Morikawa, H. Matsumura & M. Atsuta:* Bonding of a micra-based castable ceramic material with a tri-*n*-butylborane-initiated adhesive resin
456 *F. Kawano, K. Nagao, S. Inoue & N. Matsumoto:* Influence of the buccolingual position of artificial posterior teeth on the pressure distribution on the supporting tissue under a complete denture
464 *R. Liberman, E.C. Combe, V. Piddock & D.C. Watts:* Colour changes in acrylic teeth—comparison of an objective and subjective method
470 *K. Soikkonen, A. Ainamo & Q. Xie:* Height of the residual ridge and radiographic appearance of bony structure in the jaws of clinically edentulous elderly people
476 *T. Arima, H. Murata & T. Hamada:* The effects of cross-linking agents on the water sorption and solubility characteristics of denture base resin

481 *P.F. Allen, D.F. Witter, N.H.F. Wilson & A.F. Kayser:* Shortened dental arch therapy: views of consultants in restorative dentistry in the United Kingdom
486 *M.M. Winkler, E.P. Lautenschlager, A. Boghosian & E.H. Greener:* An accurate and simple method for the measurement of dental composite wear
494 *M.M. Winkler, E.P. Lautenschlager, A. Boghosian & E.H. Greener:* Visual versus mechanical wear measurement of dental composite resin
501 *N. Engel-Brill, I. Gedalia, F. Ran, E. Friedwald, M. Rotmann & L. Rosen:* The effect of topical fluoride agents on saliva secretion
505 *D.J. Chew & H.D. Edmondson:* A study of maxillofacial injuries in the elderly resulting from falls

NUMBER 8, AUGUST 1996

511 *P. Dionysopoulos, N. Kotsanos & Y. Papadogianis:* Secondary caries formation *in vitro* around glass ionomer–lined amalgam and composite restorations
550 *A. Bengtsson, T. Olsson, N. René, G.E. Carlsson, U. Dahlbom & H. Borrman:* Frequency of edentulism and identification marking of removable dentures in long-term care units
524 *P.K. Vallittu:* Fracture surface characteristics of damaged acrylic–resin-based dentures as analysed by SEM-replica technique
530 *Y. Matsui, K. Ohno, K. Michi, Y. Suzuki & K. Yamagata:* A computerized method for evaluating balance of occlusal load
536 *J. Okazaki, A. Kamada, Y. Higuchi, T. Kanabayashi, T. Sakaki & Y. Gonda:* Age changes in the rat temporomandibular joint articular disc: a biochemical study on glycosaminoglycan content
541 *N. Hochman, Y. Ehrlich & A. Yaffe:* Diagnosis and mode of treatment for 'pseudo'-class III patients and its effects on masticatory movements
548 *F.J.B. Lötters, A.J. Zwijnenburg, C.C.E.J. Megens & M. Naeije:* Relationship between condylar and incisor point displacement during habitual maximum open–close movements
555 Society of Oral Physiology Store Kro Group – Nineteenth Biennial Meeting, Abstracts of Selected Presentations

NUMBER 9, SEPTEMBER 1996

583 *J.C. Wataha & C.T. Malcolm:* Effect of alloy surface composition on release of elements from dental casting alloys
590 *K. Chung & J. Duh:* Properties of glass–ceramic materials for fixed partial denture construction
599 *F. Mora, D. Etienne & J.P. Ouhayoun:* Treatment of interproximal angular defects by guided tissue regeneration: 1 year follow-up
607 *Y.Y. Shiau, H.F. Chang, Y.C. Chang & Y.C. Chang:* Observation of bolus position with standardized test foods and fluoroscopic technique
615 *R. Sakagami & H. Kato:* The relationship between the severity of periodontitis and occlusal conditions monitored by the K6 Diagnostic System®

622 *Y. Akamatsu, S. Minagi & T. Sato:* A new method for recording mandibular position during nocturnal bruxism
627 *H. Sherfudhin, M.A. Abdullah & N. Khan:* A cross-sectional study of canine dimorphism in establishing sex identity: comparison of two statistical methods
632 *R.M. Guerra, I. Durán & P. Ortiz:* FTIR monomer conversion analysis of UDMA-based dental resins
637 Announcement
638 *L.V. Christensen & S.E. Mohamed:* Bilateral masseteric contractile activity in unilateral gum chewing: differential calculus
648 Book Reviews

NUMBER 10, OCTOBER 1996

651 *G. Preti, F. Bassi, P. Barbero, M. Lorenzetti & G. Valente:* Histological changes in edentulous oral mucosa under implant-supported overdentures
655 *A.M. Abdel-Hakim, A. Alsalem & N. Khan:* Stomatognathic dysfunctional symptoms in Saudi Arabian adolescents
662 *C.H. Wang, C.C. Tsai, T.Y.-F. Chen & G.L. Chang:* Photoelastic stress analysis of mandibular posterior cantilevered pontic
667 *L.P. Adams, C.H. Jooste, C.J. Thomas & A.M.P. Harris:* Biostereometric quantification of clinical denture tooth wear
675 *M.A. Fayyad & M.A. Al-Rafee:* Failure of dental bridges: III—Effect of some technical factors
679 *B.I. Cohen, S. Condos, B.L. Musikant & A.S. Deutsch:* Pilot study comparing the photoelastic stress distribution for four endodontic post systems
686 *L.V. Christensen, S.J. Donegan & D.C. McKay:* Mediotrusive tooth guidance and temporomandibular joint sounds in non-patients and patients
699 *P.R. L'Estrange, J.M. Battagel, B. Harkness, M.H. Spratley, P.J. Nolan & G.I. Jorgensen:* A method of studying adaptive changes of the oropharynx to variation in mandibular position in patients with obstructive sleep apnoea
712 *V.J. Miller & A. Smidt:* Condylar asymmetry and age in patients with an Angle's Class II division 2 malocclusion

NUMBER 11, NOVEMBER 1996

717 *M. Berge, G. Johannessen & J. Silness:* Relationship between alignment conditions of teeth in anterior segments and incisal wear
722 *M.J. Nevalainen, T.O. Närhi, P. Siukosaari, K. Schmidt-Kaunisaho & A. Ainamo:* Prosthetic rehabilitation in the elderly inhabitants of Helsinki, Finland
729 *A.E.R. Thorstensen, R. Duguid & C.H. Lloyd:* The effects of adding chlorhexidine and polyhexamethylene bisguanide to a light-cured periodontal dressing material
733 *A. de Wijer, M.H. Steenks, F. Bosman, P.J.M. Helders & J. Faber:* Symptoms of the stomatognathic system in temporomandibular and cervical spine disorders
742 *A. de Wijer, M.H. Steenks, J.R.J. de Leeuw, F. Bosman & P.J.M. Helders:*

Symptoms of the cervical spine in temporomandibular and cervical spine disorders

751 *R.G. Craig & E.R. Dootz:* Effect of mixed silanes on the hydrolytic stability of composites

757 *H.J.A. Meijer, F.J.M. Starmans, W.H.A. Steen & F. Bosman:* Loading conditions of endosseous implants in an edentulous human mandible: a three-dimensional, finite-element study

764 *M. Wakumoto, K. Ohno, S. Imai, Y. Yamashita, H. Akizuki & K.-I. Michi:* Analysis of the articulation after glossectomy

771 *J. Buxbaum, N. Mylinski & F.R. Parente:* Surface EMG reliability using spectral analysis

776 *P.K. Vallittu:* Peak temperatures of some prosthetic acrylates on polymerization

782 *P.D. Cheshire & J.A. Hobkirk:* An *in vivo* quantitative analysis of the fit of Nobel Biocare implant superstructures

NUMBER 12, DECEMBER 1996

791 *A.L. Symons, C.-Y. Chu & I.A. Meyers:* The effect of fissure morphology and pretreatment of the enamel surface on penetration and adhesion of fissure sealants

799 *S.J. Donegan, L.V. Christensen & D.C. McKay:* Canine tooth guidance and temporomandibular joint sounds in non-patients and patients

805 *T. Bjørnland, P. Brodin, T.A. Larheim & H. Aars:* Reflex responses of the masseter muscle in patients with chronic arthritis or internal derangement of the temporomandibular joint. A comparison with symptom-free subjects

811 *J.C. Davenport, P. Hammond & M.G. de Mattos:* The acquisition and validation of removable partial denture design knowledge. II. Design rules and expert reaction

825 *C. Mülders, M. Darwish & R. Holze:* The influence of alloy composition and casting procedure upon the corrosion behaviour of dental alloys: an *in vitro* study

832 *A. Zwijnenburg, C.C.E.J. Megens & M. Naeije:* Influence of choice of reference point on the condylar movement paths during mandibular movements

838 *P. Svensson, L. Arendt-Nielsen, P. Bjerring, P. Bak, T. Hjorth & T. Troest:* Human mastication modulated by experimental trigeminal and extra-trigeminal painful stimuli

849 *S. Yamashita, M. Ai, Q. Geng, M. Sato, H. Shinoda & S. Ando:* Application of a newly developed 3-D deformation measurement system to prosthetic dentistry

856 *K. Soikkonen, K. Hiltunen & A. Ainamo:* Radiographic condylar findings and occlusal imbalance in old people

860 **Index to Volume 23**
